

Using these templates to create certificates:

The templates on the following pages are provided for your adaptation to cover any Intel Teach Course (certificates are not provided for Elements courses).

Typically, you'll provide certificates for a course to the Senior Trainer, the Master Teacher, and Participant Teachers. One version is provided for each role. Versions are also provided for co-branding, where a 3rd party co-funds the training and you wish to include their logo.

If you need to create additional certificates for other roles or uses, type over a template below.

Instructions are provided to the left of the templates with font information, distribution options, important tips, and colors should you wish to print the course-specific secondary color.

If you have any questions or need assistance, please e-mail alison.elmer@intel.com
