

Module 8

Discovering Spreadsheets

Description: The objective of this module is to have you learn about spreadsheets as you explore spreadsheet software, discuss spreadsheet skills, and identify spreadsheet resources. You will complete an activity that requires you to develop your spreadsheet skills to create a product that is useful in your role as a classroom teacher. The product you create may improve your productivity, and completing the activity will give you direct experience with 21st century teaching and learning skills and approaches.

Pair and Share: Reflecting on Module 7

Share your answers to the Take-Home Exercise: Reflecting on Module 7 with a colleague and the whole group as directed. Record any new and good ideas on the lines that follow.
