The Intel® Teach Program

The Intel® Teach Program is a free, proven professional development program for educators worldwide. In the suite of offerings, teachers learn how to integrate technology into the curriculum they use every day to enhance student learning. The program began in 2000, and since then, more than 3 million educators in over 35 countries have used what they've learned to make teaching and learning more engaging, personal, and dynamic.

Disc 1: Curriculum Files CD

This disc contains all the Adobe Acrobat* files (PDF) for the complete Intel® Teach Essentials course Teacher Edition of the pre-service curriculum manual for versions 2.2 (for use with Microsoft Office XP*) and 3.2 (for use with Microsoft Office 2003*), including:

- Manual cover
- Introductory pages and table of contents
- Module divider pages
- Modules 1 through 10
- Appendix

Instructions

The curriculum files are located within two folders:

- Pre-Service 2.2
  (for use with Microsoft Office XP)
- Pre-Service 3.2
  (for use with Microsoft Office 2003)

Use the PDF files to view or print the complete Intel Teach curriculum. This curriculum is designed to be read and used in printed form, rather than directly in electronic form. For instance, the Microsoft Office instructions would be easier to follow if printed, and areas for note-taking are provided throughout the curriculum. Therefore, we encourage you to use a printed version of the curriculum.

Disc 2: Companion CD

This disc contains the Companion CD for curriculum versions 2.2 and 3.2. The Companion CD is an integral part of the curriculum and is used throughout the unit creation process. It includes samples of complete unit portfolios, sample student projects, Internet resources, supplementary reading, and a wealth of information for creating rich, technology-integrated projects.

Instructions

The Companion CD contains files organized by module and key topics. The best way to access those files is through the CD Index. The CD Index can be started by using **My Computer** to open the CD drive and then double-clicking the **Start_Here** file. Instructions and a direct link to the CD Index are provided in the **Start_Here** file to easily access the CD resources. Additional directions for use of the Companion CD are available in the curriculum manual appendix.

Terms of Use for Pre-Service Teacher ("YOU"):

1. Neither YOU nor your instructor is permitted to make copies of the CDs.

2. The curriculum manuals on Disc 1 are designed to be used in print form. YOU and/or your instructor may print the curriculum manuals in their entirety or only the specific sections needed.

3. YOU are not permitted to sell the CD materials (entire CD set).

4. Neither YOU nor your instructor is permitted to modify or alter the CD materials in any manner without written permission from Intel.

5. The CD materials may not be posted on an external, publicly facing Web page.

6. If YOU or your instructor reprint any materials from the Companion CD (Disc 2), YOU must include the following statement on the first page of the material: "Copyright © 2006 Intel Corporation. All rights reserved. Reprinted and distributed by permission of Intel Corporation."

7. Intel retains all Intellectual Property Rights in the material.

8. Use of the Intel Education identifier (logo) is not permitted.

System Requirements

Disc 1: Curriculum Files CD

You will need Adobe Acrobat Reader 7.0* or later to open and print the curriculum files.

For your convenience, Adobe Acrobat Reader is available on the Companion CD. Using **My Computer**, open the CD drive and then double-click the **Start_Here** file for directions.

This course curriculum uses Microsoft Office* software for Microsoft Windows* platform computers. The curriculum included in this two-disc set requires that the PC has Microsoft Office XP or 2003 and Microsoft Publisher 2002* or 2003* installed.

Disc 2: Companion CD

The Companion CD Index will function using any current Internet browser, but it runs best with the following:

- Microsoft Windows 95*, 98*, 2000*, NT*, ME*, or XP*
- Minimum of 64 MB of RAM
- Microsoft Internet Explorer 5.0* or later, set as the default browser

The files included on the Companion CD require the following software:

- Microsoft Word 2000* or later
- Microsoft PowerPoint 2000* or later
- Microsoft Publisher 2000* or later
- Microsoft Excel 2000* or later
- Adobe Acrobat Reader 7.0 or later
