

What Happened to Robin Tapping Prior Knowledge

What are some problems for wild animals that live in urban areas?

(sample responses)

- Loss of habitat
- Prey for cats and dogs
- Fly into windows
- Hit by cars or busses
- Poisoned
- Gunshot
- Parents die
- Drought

How can we reduce the impact of modern society on urban wildlife?

(sample responses)

- Protect green spaces
- Plant trees and bushes
- Keep dogs and cats indoors
- Don't use pesticides
- Educate people about not hurting animals
- Drive cautiously
- Throw trash away in containers

How can we go about finding the leading causes of injury to wildlife?

(sample responses)

- Collect our own data by:
 - Surveying wildlife experts
 - Interviewing community members
 - Going to clinics and hospitals and asking for data they have collected
- Find research others have done
- Analyze all our data to look for causes
