

Weather Comparison Graph

What is it like right now in our sister city?

(Note: Temperature data is added to this graph season by season. What you see here is the completed graph.)

This graph shows the temperature here in Portland, where we live, and the temperature in our sister city, Melbourne, Australia. We chose to compare our weather with Melbourne, because it is in the opposite place of us on the globe. Our summer and fall is pretty hot, but in Melbourne, it is not very warm. But during winter and spring when our temperatures go down, it is really hot in Melbourne. Our seasons are opposite!

Portland is at 45° 36' N 122° 36' W.
Melbourne is at 37° 47' S 144° 58' E.

	A	B	C	D
1	July	September	January	April
2	79	74	45	60
3	56	52	33	41
4	55	61	79	68

Seasonal Highs and Lows Portland, Oregon vs. Melbourne, Australia
