Performance Task Analysis Rubric This rubric can be found in the exemplar library in the *Assessing Projects* application.

	4	3	2	1
Determines	Analyzes and	Understands	Partially	Misunderstands
the Problem	Readily	Task	Understands	Task
	Understands		Task	
	Task	I show my		I have trouble
		understanding	I show some	showing that I
	I show my	of some of	understanding	understand the
	understanding of	the ideas	of the ideas	ideas and
	the ideas and	and/or	and processes	processes.
	processes.	processes.	but may not	
			express them	I need help
	I identify all of	I identify	clearly.	identifying the
	the important	most of the		elements of the
	elements.	important	I identify	task.
		elements.	some	
	I exclude		important	
	unnecessary	I choose and	elements.	
	information.	use the	1	
		necessary	I assume	
		information	information	
		but am	that is not correct or use	
		confused by the		
		unnecessary	unnecessary information.	
		information.		
		information.		
Chooses	Develops	Develops	Uses	Uses
Strategy	Efficient and	Workable	Appropriate	Inappropriate
	Workable	Strategy	Strategy	or Unworkable
	Strategy		Some of the	Strategy
		I change the	Time	
	I change the	problem into		I change the
	problem into	useful	I use only	problem into
	useful processes	processes.	part of the	incorrect
	unding correct			
	using correct		information	processes.
	terms and	I choose	given in the	
	U U	skills,		I can not choose
	terms and reasoning.	skills, strategies,	given in the problem.	I can not choose skills, strategies,
	terms and reasoning. I choose the	skills, strategies, processes	given in the problem. I choose	I can not choose skills, strategies, processes

Applies Strategy	Shows Explicit Evidence	Infers Some Evidence But Not Always Clear I have a clear response, but not as complete. Some people may not understand my thinking. I include some supporting arguments. My diagrams and models fit	Possible Evidence of a Plan My response is incomplete and my explanation is muddled. My arguments are incomplete and unconvincing. My diagrams and models are unclear.	No Evidence of Carrying Out the Plan
	and elegant diagrams and models.	and models fit the problem.		
Makes Connections	Synthesizes and Generalizes I go beyond the requirements of the problem. I find a relationship, connection, or extension to a new situation or concept. I ask, "What if?, I wonder"	Connects and Applies Answer I complete the requirements of the problem, but do not go beyond. If asked, I can connect and apply answer to a new problem, but I may not see relationships or connections to other concepts or situations.	Partial Connection of Answer I don't complete the requirements of the problem. I partially connect and apply my answer to a new problem. My connection may be incorrect.	No Connections I can not complete the requirements of the problem without assistance. My connections do not apply. I don't provide evidence that the solution makes sense.
