Sample Project Timeline

Outline the milestones and key activities for the project. Determine which activities you need to complete and which activities your students will be responsible for completing. Set a general timeline for how long to devote to Before Project Work activities, During Project Work activities, and After Project Work activities.

Before Project Work

Teacher		Students
Introduce project scenario	Week 1	Select questions for investigation
Gauge student needs		Complete project plan
Form project teams		

During Project Work

Teacher		Students
Set up Wiki	Week 2	Begin research
Role-play effective search skills		Collect data and information
Monitor individual work		Organize results
Mini lesson on using spreadsheets		Interpret findings
Conference with groups		Reflect on implications and understanding
		Revise inquiry as needed
		Refine conclusions and generalizations

After Project Work

Teacher	Students
Lead CFQs discussion	Rehearse presentations
Provide feedback	Present final product
Incorporate learnings
