## **WWI Scenarios Decision-Making Checklist**

Use this checklist to help your group think about your scenario related to the entrance of the United States into World War I.

We determine what the goals of the United States should be in responding to the scenario and prioritize them.
We analyze the scenario to identify the most important factors.
We figure out what information we need to make a good decision and find it, if possible. If this information was not available at the time, we make the best guess we can based on what we
do know.
We generate numerous solutions, some of which are obvious, and some which are unconventional or unusual.
We draw conclusions about the intended and unintended consequences of each of our solutions.
We narrow down our list to those options that are most likely to help the United States meet
its goals with the least number of negative consequences.
· · · · · · · · · · · · · · · · · · ·
We select the best solution and plan how we will explain and support our decision.
