

Research @ Intel 2012

10th Anniversary

Research@Intel 2012

Justin Rattner
Chief Technology Officer
Intel Corporation

What You'll See Today

R@I 2012: Facets of Future Life

My Life

- Virtual dressing room
- Immersive shopping
- Life without keys

My Car

- Intelligent headlights seeing through rain
- Research-driven "automobility"

My Job

- Visual analytics for complex projects
- Real-time assistant for group conversations

Essential Tech

- 3D Web
- The face of security
- Context-aware video streaming

University Collaborations Panel

Featuring Leaders from Intel Research Centers from Around the World

SOCIAL
COMPUTING

United States

Paul Dourish

BIG
DATA

United States

Pradeep Dubey

COMPUTATIONAL
INTELLIGENCE

Israel

Ronny Ronen

SECURE
COMPUTING

Germany

Dr. Matthias Schunter

SUSTAINABLE
CONNECTED CITIES

United Kingdom

Charlie Sheridan

Hosted by Limor Fix, *Director, University Collaborative Research*
Screening Room, 2nd Floor, 11:15 a.m.–12:00 p.m.

Tech Trends Table Talks

Featuring Intel Principal Investigators from Around the World

CONNECTED CONTEXT COMPUTING

Jane Hsu
ICCC NTU PI

Yen-Kuang Chen
ICCC Intel PI

CLOUD & BIG DATA

Pradeep Dubey
ISTC-BD Intel PI

Greg Ganger
ISTC-CC CMU PI

SECURE COMPUTING

John Manferdelli
ISTC-SC Intel PI

Matthias Schunter
ICRI-SC Intel PI

VISUAL COMPUTING

Pat Hanrahan
ISTC-VC Stanford PI

Jim Hurley
ISTC-VC Intel PI

EMBEDDED & PERVASIVE COMPUTING

Priya Narasimhan
ISTC-EC CMU PI

Dieter Fox
ISTC-PC UW PI

Over Lunch in the Grand Lobby, 12:00-1:00 p.m.

My Car: Automotive Research Breakout

Brian David Johnson

Futurist and Director

Future Casting

Interaction & Experience Research

Intel Labs

**Screening Room,
2nd Floor,
1:00-1:30 p.m.**

Innovative Industrial Research in the 21st Century

- New collaborative research models
- Innovation over invention

New Models for Global University/Industry Research

Intel Collaborative Research Institutes (ICRIs)

Computational Intelligence

TECHNISCHE UNIVERSITÄT DARMSTADT

Secure Computing

Sustainable Connected Cities

Connected Contextual Computing

UNIVERSITÄT DES SAARLANDES

Visual Computing

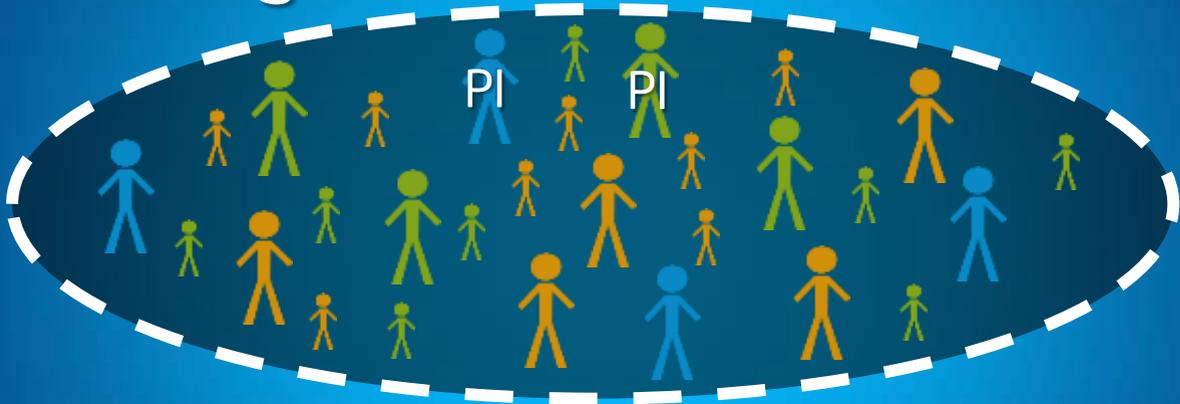

Breaking Barriers to U.S. University Collaboration

Intel Science & Technology Centers (ISTCs)

Creating New Research Communities

Intel Researchers

Hub Univ. Researchers

Spoke Univ. Researchers

Pervasive Computing

Visual Computing

Secure Computing

Cloud Computing

Big Data

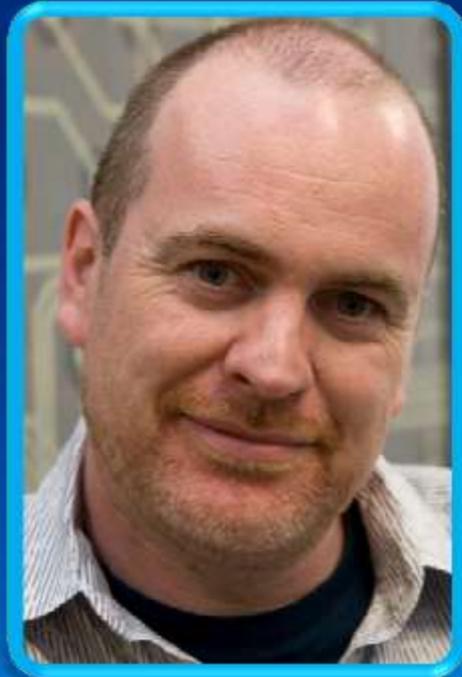

Embedded Computing

Breaking News: The ISTC for Social Computing

The 7th and Newest Intel Science and Technology Center

Paul Dourish

ISTC-Social Academic PI
Professor of Informatics,
UC Irvine

Genevieve Bell

Intel Fellow and Director
Interaction & Experience
Research, Intel Labs

First ISTC focused on exploring the future of people and technology

Praise for the ISTC for Social Computing

“This is a fantastic proposal. In fact it’s not only the best proposal I have seen in the social sciences – at some point I would like to use it as a paradigmatic example of a great proposal on deeply significant and timely issues that need to be explored and problematized.”

John Seely Brown
Former Chief Scientist of Xerox & director of Xerox PARC

Research Agenda

Exploring IT and Digital Media as Social and Cultural Phenomena

Materialities of
Information

Re-thinking information as grounded in materials and physical objects

Information
Ecosystems

How we relate to each other in, around, and through data

Subjectivities
of Information

Moving beyond “the user” as the center of user experience and user-centered design

Creativity and
Collectivity

Group-embedded technical creativity and how it can change the world

Algorithmic
Living

Digital representations and algorithms that change how we understand ourselves

Innovative Industrial Research in the 21st Century

- New collaborative research models
- **Innovation over invention**

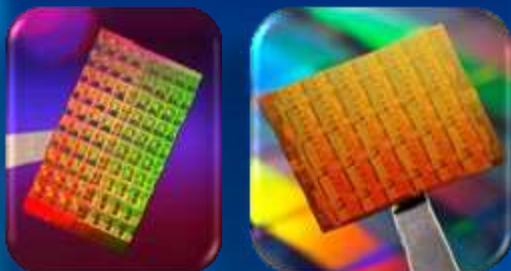

Invention to Innovation

10 Years of Measurable Intel Product Roadmap Impact

INVENTED@INTEL LABS

Light Peak

Polaris & Single-chip
Cloud Computer

Platform Power
Management
