

A real life imaginary friend that invites parents to experience their child's world.

In 75 percent of families, both parents work fulltime. This prevents busy parents from experiencing important moments in their child's lives. EiO will allow parents to share moments with their children that they otherwise may have missed. By using cameras and sensing abilities coupled with an online interface, EiO creates a new way for kids and parents to connect.

## Capture

The EiO Buddy, is equipped with cameras that allows parents to capture moments when they can't be around.

## Security

EiO gives parents peace of mind knowing their child is safe when they can't be around.

## Connection

Using an online UI, EiO aids in creating a meaningful long distance connection between parents and kids be together.

## Sharing

Sharing made easier - with EiO photos and video can be instantly uploaded and shared with friends and family.
