

Material Declaration Datasheet Restriction on Hazardous Substances (RoHS) Compliance

Manufacturer: Intel Corporation Date: 13 January 2006 Equipment type: desktop board Product weight: 586.2 grams

Model designation: D945PLNM, D945GZNM Lead-free product: Lead-free Second Level Interconnects (SLI) only

RoHS Definitions:

Quantity limit of 0.1% by mass (1000 ppm) for; Lead (Pb); Mercury; Hexavalent Chromium; Polybrominated Biphenyls (PBB); Polybrominated Diphenyl Ethers (PBDE). Quantity limit of 0.010% by mass (100 ppm) for Cadmium.

Intel understands RoHS compliance requires Lead and other materials banned in RoHS Directive are either (1) below all applicable substance thresholds as proposed by the EU, or (2) an approved or pending exemption applies. Note, RoHS implementation details are subject to change.

RoHS Declaration:

This product is RoHS directive compliant but does contain Lead, a RoHS restricted substance per the definitions above. This product uses the following applicable RoHS technology exemptions:

- Lead in glass of electronic components
- Lead in electronic ceramic parts (e.g. piezoelectronic devices)
- Lead as an alloying element in aluminum containing up to 0.4% lead by weight
- Lead in high melting temperature type solders (i.e. lead based alloys containing 85 % by weight or more lead)
- Lead in solders to complete a viable electrical connection between semiconductor die and carrier within integrated circuit Flip Chip packages

This product has been verified to be in conformance with EU directive 2002/95/EC as currently understood. To the best of our knowledge the information contained in this declaration is true and correct.

Level A Materials and Substances:

Materials from Annex A of the EIA/EICTA/JGPSSI Material Composition Declaration Guide and listed below are not contained in this product in quantities above the threshold level for these materials, nor intentionally added to this product.

Asbestos Mercury/Mercury compounds Polychlorinated Naphthalenes
Azo colorants Ozone Depleting Substances Radioactive substances
Cadmium/Cadmium compounds Polybrominated Biphenyls (PBBs) Shortchain Chlorinated Paraffins

Hexavalent Chromium Polybrominated Diphenylethers (PBDEs) Tributyl Tin (TBT) and Triphenyl Tin (TPT)

Hexavalent Chromium compounds Polychlorinated Biphenyls (PCBs) Tributyl Tin Oxide (TBTO)

This product does contain Lead or Lead compounds in discreet component parts above the homogenous material threshold level of 1000 ppm per the RoHS exemptions above. In the aggregate, the Lead concentration for this product is 502 ppm.

Level B Materials and Substances:

This product does contain materials listed in Annex B of the EIA/EICTA/JGPSSI Material Composition Declaration Guide above the threshold level of 1000 ppm as listed below.

Material / Substance	Description of Use	Location in Product	Material Concentration
Antimony/Antimony compounds	flame retardant	board substrate	4,030 ppm
Brominated flame retardants	flame retardant	board substrate	32,900 ppm
Nickel/Nickel compounds	plating	component plating	3,510 ppm

COMMENTS

- 1. The data reported for Level A and B materials and substances are based on analytical testing of a representative sample product. Individual test results may vary due to differences in production and/or sensitivities of analytical testing methods. Data shown reflect analytical testing intended to validate Intel's RoHS compliance systems. Intel's certification of RoHS compliance at the homogenous material level is based on Supplier Declarations of Conformance.
- 2. This declaration is based on the product specified, with all product skus of this product eligible to be covered by this declaration.
- 3. Material concentration data in parts per million (ppm) is representative of all product skus within the product family.
- 4. Material mass can be estimated by multiplying concentration (in ppm) by product weight.
- 5. The remainder of this product consists of non-reportable metals (i.e., copper, iron, tin), epoxy resin and other non-metal materials. INTEL ACCEPTS NO DUTY TO UPDATE THIS MDDS OR TO NOTIFY USERS OF THIS MDDS OF UPDATES OR CHANGES TO THIS MDDS. INTEL SHALL NOT BE LIABLE FOR ANY DAMAGES, DIRECT OR INDIRECT, CONSEQUENTIAL OR OTHERWISE, SUFFERED BY USERS OR THIRD PARTIES AS A RESULT OF THE USERS RELIANCE ON INFORMATION IN THIS MDDS THAT HAS BEEN UPDATED OR CHANGED.

关于符合中国《电子信息产品污染控制管理办法》的声明

Management Methods on Control of Pollution from **Electronic Information Products** (China RoHS declaration)

产品中有毒有害物质的名称及含量

部件名称	有毒有害物质或元素						
(Parts)	铅	汞	镉	六价铬	多溴联苯	多溴二苯醚	
	(Pb)	(Hg)	(Cd)	(Cr6+)	(PBB)	(PBDE)	
主板组件		0	0	0	0	0	
Motherboard Assembly	×		O	0			

- ○:表示该有毒有害物质在该部件所有均质材料中的含量均在 SJ/T 11363-2006 标准规定的 限量要求以下。
- : Indicates that this hazardous substance contained in all homogeneous materials of this part is below the limit requirement in SJ/T 11363-2006.
- ×:表示该有毒有害物质至少在该部件的某一均质材料中的含量超出 SJ/T 11363-2006 标准 规定的限量要求。
- ×: Indicates that this hazardous substance contained in at least one of the homogeneous materials of this part is above the limit requirement in SJ/T 11363-2006.

对销售之日的所售产品,本表显示我公司供应链的电子信息产品可能包含这些物质。注意:在 所售产品中可能会也可能不会含有所有所列的部件.

This table shows where these substances may be found in the supply chain of our electronic information products, as of the date of sale of the enclosed product. Note that some of the component types listed above may or may not be a part of the enclosed product.
