# Intel AppUp<sup>SM</sup> Small Business Service Built on the Intel® Hybrid Cloud Platform Installation Guide -Aventyn CLIP\* Care Suite 3.0

## Installation Instructions for the Aventyn CLIP\* Care Suite 3.0 on the Intel Hybrid Cloud Platform Server with system build 3.0 or later

- 1. Go to Intel® Hybrid Cloud management portal <u>https://hybridcloud.intel.com</u>
  - a. Login using your MSP ID.
  - b. Click on the Catalog link on the left hand side of the screen
  - c. Locate the Aventyn\* application.

| Catalog 🔔<br>Patch 🕂 | Aventyn CLIP Care Suite 3.0<br>CLIP Care is a secure electronic health record and<br>© Description   |
|----------------------|--|
|                      | CLIP Care is a secure electronic health record and clinical information<br>management solution with integrated RFID and wireless bio-sensor<br>capability that enables continuity of care anytime, anywhere and<br>anyplace. CLIPCare is a doud enabled web-based solution for hospitals,<br>physician offices, university medical centers, home care providers,<br>hospices and clinical researchers to manage patient health records,<br>track assets, and capture charges and electronic prescription orders.<br>CLIPCare aggregates, filters and routes interoperable patient health<br>and connected medical device asset information not previously available.<br>The platform supports third party M2M application programming<br>interfaces to facilitate the rapid integration and support for managing<br>multiple mobile handsets, medical devices and sensors for remote<br>patient monitoring modular architecture lowers operating costs,<br>improves care quality and patient safety. |
|                      | Type: Application  |

Aventyn CLIP\* Care Suite requires Microsoft\* IIS and a Microsoft\* SQL database setup before it can be used.

### Setting up IIS for Aventyn CLIP\* Care Suite\*

\*Skip this section and go to "Aventyn CLIP\* CareSuite\* Database Setup" if IIS is already installed in the appliance.

- 1. Install Microsoft\* Internet Information Server (IIS)
  - a. Log into the Intel<sup>®</sup> Hybrid Cloud server manager.
  - b. Select the Appliances Appliances button, the Appliances page opens.
  - c. Select the Microsoft Windows\* appliance on which Aventyn\* is installed.

- d. If the appliance is Stopped, click on the Start <a>start</a> button. Select the Console tab. The Console page opens.
- e. Click the Launch button next to VNC Console. The VNC window opens up.
- f. Log into the Microsoft Windows\* appliance.
  - i. Choose Start → All Programs → Administrative Tools → Server Manager. The Server Manager window opens up.

| Server Manager   |   |  |
|--|---|--|
| File Action View Help                                      |   |  |
| Server Manager (WIN2K8SERVER)                              | Roles                                     |  |
| Kotes H Web Server (IIS) H Gamma Diagnostics Configuration | View the health of the roles installed of | on your server and add or remove roles and features. |
| E Storage  | Roles Summary                             | Roles Summary Help                                   |
|  | Roles: 1 of 17 installed                  | Add Roles  |

- ii. Select Roles and click on Add Roles. The Add Roles Wizard window opens up. Click Next.
- iii. In Select Server Roles, check Web Server (IIS) and click Next

V. Close the Server Manager window when installation is complete.

#### Aventyn CLIP\* CareSuite\* Database Setup

#### Prerequisites:

- Microsoft\* Internet Information Server (IIS) Web Server is installed in the appliance
- Microsoft\* SQL Server is installed in the appliance

#### 1. Generate the CLIP database and launch the CLIP application

- a) Log into the Intel<sup>®</sup> Hybrid Cloud Server management console.
- b) Select **Appliances** button, the Appliances page opens.
- c) Select the appliance where Aventyn\* is installed on.
- d) If the appliance is Stopped, click on the **Start** button. Select the **Console** tab. The **Console** page opens.
- e) Click the Launch button next to VNC Console. The VNC window opens up.
- f) Log into the appliance.
