Microsoft SQL Server 2008 R2 Workgroup Edition Installation

1. When the download is complete, log into Intel Hybrid Cloud Server Manager.
2. Select **Appliances**  button, the Appliances page opens.
3. Select the appliance where **SQL Server 2008 R2 Workgroup Edition** is installed on.
4. If the appliance is Stopped, click on the **Start**  button. Select the **Console** tab. The **Console** page opens.
5. Click the **Launch**  button next to VNC Console. The VNC window opens up.
6. Log into the appliance.

7. Go to **C:\SQLServer2008R2** and double click on **setup.exe** (application). Refer to <http://technet.microsoft.com/en-us/library/ms143219.aspx> as a guide.
 - a. When reaching the **Product Key** page, select **Evaluation** from the **Specify a free edition** dropdown list.
 - b. When reaching the **Feature Selection** page, leave the **Analysis Services** and **Integration Services** checkboxes unchecked. SQL Server 2008 R2 Workgroup Edition does not support these features.

c. Close all SQL Server 2008 R2 installation and setup windows when complete.

8. From the management computer where Intel Hybrid Cloud Server Manager is installed, go to **C:\Program Files (x86)\HybridCloudServerManager**. Type and execute :

`ixe.exe -h <IP address of IHC server> -u admin -p <password> -o initiate-usage-reporting`

Example:

```
C:\Program Files (x86)\HybridCloudServerManager>ixe -h <ip address of IHC server> -u admin -p <password> -o initiate-usage-reporting
```

Uninstall Microsoft SQL Server 2008 R2 Workgroup Edition.

1. Log into Intel Hybrid Cloud Server Manager.
2. Select **Appliances**  button, the Appliances page opens.
3. Select the appliance where **SQL Server 2008 R2 Workgroup Edition** is installed on.
4. If the appliance is **Stopped**, click on the **Start**  button. Select the **Console** tab. The **Console** page opens.
5. Click the **Launch**  button next to VNC Console. The VNC window opens up.
6. Log into the appliance through the VNC console
7. Go to **Start > Control Panel > Programs > Uninstall a Program**.
8. Right click on **Microsoft SQL Server 2008 R2 (64-bit)** and select **Uninstall/Change**.
9. Select **Remove** and complete the **Remove SQL Server 2008 R2** wizard. Click **Close** when done.
10. On the Intel Hybrid Cloud Server Manager UI, select **Appliances**  button, the Appliances page opens.
11. Select the appliance where **SQL Server 2008 R2 Workgroup Edition** was installed on. Click the **Stop** button if the appliance is running.
12. Click on the **Application** tab
 - a. Click the **Uninstall** button and select **Yes** . SQL Server 2008 R2 Workgroup Edition is now removed.
