

INTEL SOFTWARE LICENSE AGREEMENT

IMPORTANT - READ BEFORE COPYING, INSTALLING OR USING.

Do not use or load this software and any associated materials (collectively, the “Software”) until you have carefully read the following terms and conditions. By loading or using the Software, you agree to the terms of this Agreement. If you do not wish to so agree, do not install or use the Software.

LICENSE: Subject to the restrictions below, Intel Corporation (“Intel”) grants to you the following non-exclusive, non-assignable, royalty-free copyright licenses in the Software. The Software may contain the software and other property of third party suppliers, some of which may be identified in, and licensed in accordance with, the “license.txt” file or other text or file in the Software:

- **Developer Tools** include developer documentation, installation or development utilities, and other materials. You may use them internally for the purposes of using the Software as licensed hereunder, but you may not redistribute them.
- **Sample Source** may include example interface or application source code. You may copy, modify and compile the Sample Source and distribute it in your own products in binary and source code form.
- **End-User Documentation** includes textual materials intended for end users. You may copy, modify and distribute them.
- **Licensed Binaries** are redistributable code provided in binary form. You may copy and distribute Licensed Binaries with your product.

RESTRICTIONS: You will make reasonable efforts to discontinue distribution of the portions of the Software that you are licensed hereunder to distribute, upon Intel’s release of an update, upgrade or new version of the Software and to make reasonable efforts to distribute such updates, upgrades or new versions to your customers who have received the Software herein.

You may not reverse-assemble, reverse-compile, or otherwise reverse-engineer any software provided solely in binary form.

Distribution of the Software is also subject to the following limitations: you (i) are solely responsible to your customers for any update or support obligation or other liability which may arise from the distribution, (ii) do not make any statement that your product is “certified,” or that its performance is guaranteed, by Intel, (iii) do not use Intel’s name or trademarks to market your product without written permission, (iv) shall prohibit disassembly and reverse engineering, and (v) shall indemnify, hold harmless, and defend Intel and its suppliers from and against any claims or lawsuits, including attorney’s fees, that arise or result from your distribution of any product.

THIRD PARTY CODE. You are aware that the Software interfaces with other third party libraries/components/applications/user interface/utilities (collectively referred to as “Third Party Code”). Exhibit “A” provides the licensing requirements for Third Party Code. It is your responsibility to comply with Third Party Code restrictions and licensing requirements.

OWNERSHIP OF SOFTWARE AND COPYRIGHTS. Title to all copies of the Software remains with Intel or its suppliers. The Software is copyrighted and protected by the laws of the United States and other countries, and international treaty provisions. You may not remove any copyright notices from the Software. Intel may make changes to the Software, or to items referenced therein, at any time without notice, but is not obligated to support or update the Software. Except as otherwise expressly provided, Intel grants no express or implied right under Intel patents, copyrights, trademarks, or other intellectual property rights. You may transfer the Software only if the recipient agrees to be fully bound by these terms and if you retain no copies of the Software.

LIMITED MEDIA WARRANTY. If the Software has been delivered by Intel on physical media, Intel warrants the media to be free from material physical defects for a period of ninety days after delivery by Intel. If such a defect is found, return the media to Intel for replacement or alternate delivery of the Software as Intel may select.

EXCLUSION OF OTHER WARRANTIES. EXCEPT AS PROVIDED ABOVE, THE SOFTWARE IS PROVIDED "AS IS" WITHOUT ANY EXPRESS OR IMPLIED WARRANTY OF ANY KIND INCLUDING WARRANTIES OF MERCHANTABILITY, NONINFRINGEMENT, OR FITNESS FOR A PARTICULAR PURPOSE. Intel does not warrant or assume responsibility for the accuracy or completeness of any information, text, graphics, links or other items contained within the Software.

LIMITATION OF LIABILITY. IN NO EVENT SHALL INTEL OR ITS SUPPLIERS BE LIABLE FOR ANY DAMAGES WHATSOEVER (INCLUDING, WITHOUT LIMITATION, LOST PROFITS, BUSINESS INTERRUPTION, OR LOST INFORMATION) ARISING OUT OF THE USE OF OR INABILITY TO USE THE SOFTWARE, EVEN IF INTEL HAS BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES. SOME JURISDICTIONS PROHIBIT EXCLUSION OR LIMITATION OF LIABILITY FOR IMPLIED WARRANTIES OR CONSEQUENTIAL OR INCIDENTAL DAMAGES, SO THE ABOVE LIMITATION MAY NOT APPLY TO YOU. YOU MAY ALSO HAVE OTHER LEGAL RIGHTS THAT VARY FROM JURISDICTION TO JURISDICTION.

TERMINATION OF THIS AGREEMENT. Intel may terminate this Agreement at any time if you violate its terms. Upon termination, you will immediately destroy the Software or return all copies of the Software to Intel.

APPLICABLE LAWS. Claims arising under this Agreement shall be governed by the laws of Delaware, excluding its principles of conflict of laws and the United Nations Convention on Contracts for the Sale of Goods. You may not export the Software in violation of applicable export laws and regulations. Intel is not obligated under any other agreements unless they are in writing and signed by an authorized representative of Intel.

GOVERNMENT RESTRICTED RIGHTS. The Software is provided with "RESTRICTED RIGHTS." Use, duplication, or disclosure by the Government is subject to restrictions as set forth in FAR52.227-14 and DFAR252.227-7013 et seq. or its successor. Use of the Software by the Government constitutes acknowledgment of Intel's proprietary rights therein. Contractor or Manufacturer is Intel Corporation, 2200 Mission College Blvd., Santa Clara, CA 95052.

**SSH LICENSE
ssh/scp**

This file is part of the OpenSSH software.

The licenses which components of this software fall under are as

follows. First, we will summarize and say that all components are under a BSD license, or a license more free than that.

OpenSSH contains no GPL code.

- 1)
Copyright (c) 1995 Tatu Ylonen <ylo@cs.hut.fi>, Espoo, Finland
All rights reserved

As far as I am concerned, the code I have written for this software can be used freely for any purpose. Any derived versions of this software must be clearly marked as such, and if the derived work is incompatible with the protocol description in the RFC file, it must be called by a name other than "ssh" or "Secure Shell".

[Tatu continues]

However, I am not implying to give any licenses to any patents or copyrights held by third parties, and the software includes parts that are not under my direct control. As far as I know, all included source code is used in accordance with the relevant license agreements and can be used freely for any purpose (the GNU license being the most restrictive); see below for details.

However, none of that term is relevant at this point in time. All of these restrictively licensed software components which he talks about have been removed from OpenSSH, i.e.,

- RSA is no longer included, found in the OpenSSL library
- IDEA is no longer included, its use is deprecated
- DES is now external, in the OpenSSL library
- GMP is no longer used, and instead we call BN code from OpenSSL
- Zlib is now external, in a library
- The make-ssh-known-hosts script is no longer included
- TSS has been removed
- MD5 is now external, in the OpenSSL library
- RC4 support has been replaced with ARC4 support from OpenSSL
- Blowfish is now external, in the OpenSSL library

One component of the ssh source code is under a 4-clause BSD license, held by the University of California, since we pulled these parts from original Berkeley code. The Regents of the University of California have declared that term 3 is no longer enforceable on their source code, but we retain that license as is.

bgshio.c

I/O functions for Robert Geer's VxWorks shell, bgsh.

er

First, the term "bgsh" refers collectively to the files bgshile.c, bgshio.c, find_symbol.c, find_symbol.h, bgshhelp.c, & bgsh.c.

The usual disclaimer stuff: I make no guarantees that bgsh will do anything useful or not do anything harmful. I will say that it works for me & it may also work for you. If you use or extend or change bgsh, please let me know - it sure would brighten up my day!

In the spirit of Free Software Foundation's GPL, you may include bgsh code in any project & it must be supplied free of charge. I want the bgeercredit text string (below) left intact. I can use all the credit I can get.

```
static char* bgeercredit=
