The Intel® IXP465 Development Platform (MM# 865836) includes the following:

Description	Qty
Boards	
IXDP465 Development Platform Board (C73008-003)	1
IXP465 Network Processor Module (C73149-002)	1
IXPETM465 MII Ethernet PHY Mezzanine Card (A95307-002)	1
Hardware	
Intel® PRO/100+ Adapter	1
Set of extra jumpers	1
Cables	
Ethernet Cables — Straight (RJ-45)	2
RS232 Serial Cable — Straight	2
U.S. Power Cord	1
Power Supply	
180-W, A/C Power Supply	1
Documentation	
Intel Safety Warning Document	1
Intel Software License Agreement	1
Terms and Conditions of Sale	1

NOTE: The Intel® IXP465 Development Platform supports the Intel® IXP465 Network Processor.

Follow these steps to begin software development:

- 1) Download the development platform "Documentation Kit" from:
<http://www.intel.com/design/network/products/npfamily/ixdp465.htm>
- 2) To get started, follow the steps detailed in the *Intel® IXP465 Development Platform Quick Start Guide* document.

NOTE: Key documentation is available at <http://www.intel.com/design/network/products/npfamily/docs/ixp4xx.htm>. The documentation available here will be updated when new revisions are released. The latest Specification Updates are available through your local Intel Representative.

NOTE: Associated 3rd Party Software is required to construct a Linux* or VxWorks* development environment. For more information, Intel® IXP400 Software Release Notes are intended to guide the user through software installation and setup of the host computer, and can be found at <http://www.intel.com/design/network/products/npfamily/ixp425swr1.htm>. In the "Software Available" section of the above Web site, select the latest software release; for example, "Intel® IXP400 Software v 2.0". Then click the link for the release notes; for example, "2.0 release notes".

Design files and software are subject to change. Contact your Intel representative to ensure you have the latest Intel IXP4XX Product Line of Network Processors and technical documents for this development platform.

If you are missing any of the listed contents or have any questions, please contact your local Intel representative.
