

Intel® Rapid Storage Technology

Systems running driver version 15.9.x, 16.0.x, 16.5.x, or 16.7.x should update to the latest version.

Intel recommends that you perform this driver update via the Intel® Driver & Support Assistant (IDSA) tool. IDSA provides an automated, simplified update process with no extra steps to perform, and may identify other needed important driver updates. If you are not sure if this driver/update is applicable to your system click the “get started” link below. The IDSA tool will provide the needed guidance.
